GRADUATION RATES

Graduation percentage rates are calculated based on the number of students who enrolled in a program in a given year (the “cohort”); and who graduated within 150% of their expected time to graduation (i.e., Bachelor’s degree students are expected to complete their degree programs in four years, therefore 150% of the expected time = six years. Master’s degree students are expected to complete their degree programs in two years, therefore 150% of the expected time = three years).
