

STUDENT ACHIEVEMENT DATA

RETENTION RATES

Retention rates are calculated based on the number of full-time students who enrolled in their first university degree program in the given year and who also re-enrolled the following year.

PROGRAM	FALL 2022 - FALL 2023	FALL 2023 - FALL 2024	FALL 2024 - FALL 2025	3-YEAR AVERAGE

GRADUATION RATES

Graduation percentage rates are calculated based on the number of students who enrolled in a program in a given year (the "cohort"); and who graduated within 150% of their expected time to graduation (i.e., Bachelor's degree students are expected to complete their degree programs in four years, therefore 150% of the expected time = six years. Master's degree students are expected to complete their degree programs in two years, therefore 150% of the expected time = three years).
